

## ExtremeWinterContact™

WINTER STUDLESS TIRE DESIGNED FOR EXCELLENT SNOW AND ICE TRACTION. PERFORMS SUPERBLY ON DRY AND WET PAVEMENT IN COLD TEMPERATURES.

Benefits:

- **Improved dry handling.** Compact outside tread with elevated lateral grooves reinforce the shoulder for improved handling.
- **Hydroplane resistance.** Inclined grooves direct water out of the pattern.
- **Excellent traction in the snow.** Maximum void and grip edges in the center contact patch with traction ridges in the grooves provide excellent snow grip.
- **Reduced braking distances in snow and ice.** High sipe density and a highly flexible compound provide biting edges for reduced braking distances.
